Training Activities

Training has been an important part of our activities since 2005.

- More than 34 training sessions have been conducted in different countries in the region since 2005.
- Since 2006, training has also focused on awareness on IPv6.
- Five training sessions scheduled for the remainder of 2008.
- Currently working on improving training tools (online training, Virtual Testing Lab, training material, etc.)
- Our goal is to conduct training in the entire Continent by Dec 2009

Cooperation

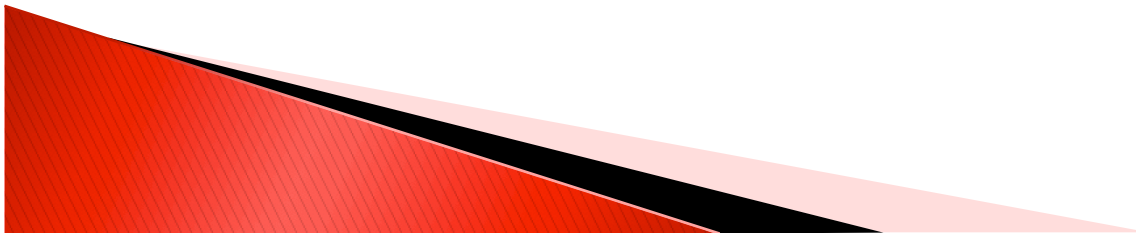

- ▶ Continue to support other sister Organizations
 - AfTLD: Continue Administrative and Financial support of AfTLD.
 - AfNOG: Continue Financial support of AfNOG meetings.
 - AAU/AfREN: Organization of IPv6 and BGP training for Campus Network Operators (April'08 – Cameroon). More training is planned for Universities in coming months.

 - ▶ Afrinic has joined the 6Deploy consortium
 - Supported by the European Commission and composed of 13 organizations (Afrinic, LACNIC, Cisco Systems, RENATER, Consulintel, etc.)
 - **Objective:** to support IPv6 deployment in Europe and developing countries.
- 

Outreach Activities

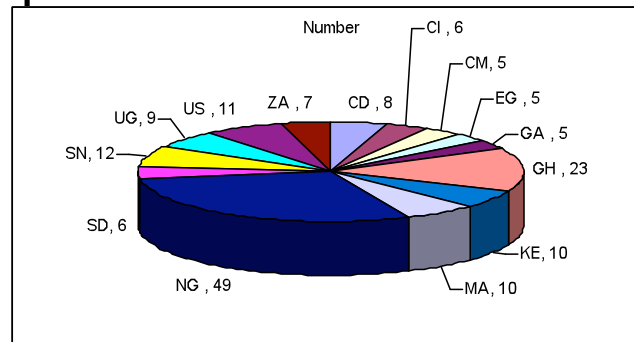

- Booth at ITU Africa event in Cairo, May 2008.
- Booth at upcoming ICANN meeting in Cairo, Nov 2008.
- Internet Governance Workshop for Regulators and Policy makers, Dakar, Senegal 13–16 Oct 2008.
- Ongoing Fellowship Program
- First 6deploy training event in the region in Nairobi Kenya (17–20 June 2008).

It was successful as evident by positive survey responses, subsequent training requests, and positive coverage by the local press

Afrinic-8 (Rabat) outcome

- ▶ Successful Afrinic-8 meeting in Rabat (back to back with AfNOG and AfREN meetings).
- ▶ We had 190 participants from 45 countries:

20% Education, 15% Telecommunication, 11% Governments/regulators, 10% ISP's,

- ▶ 4 Policy proposals were presented and discussed.
- ▶ Presentation of key elements of Afrinic's 3-year Strategic Plan
- ▶ **Board elections:**
 - 2 New 'alternate' board members elected for the Indian Ocean and Central Africa
